

REMARKS

In the Office Action dated October 1, 2009, paragraph 0016 of the specification was found objectionable for reference to "claims 2 and 3", and claims 2 and 10 were rejected under 35 USC 112 for use of objectionable phrases "such as" and "DAR." By the foregoing amendments, these matters have been corrected. New claims 14-16 have been added to set forth subject matter removed from claim 2.

Standing claims 1-13 were also provisionally rejected on the grounds of nonstatutory obviousness-type double patenting over the claims of co-pending Application No. 10/575,684. In response, the applicant submits herewith a terminal disclaimer that overcomes this basis of rejection.

Accordingly, it is submitted that this application is now in condition for allowance. Favorable reconsideration is respectfully requested.

Respectfully submitted,
